Career Objective

Enthusiastic B.Tech CSE student with strong skills in full-stack web and mobile app development. Experienced in deploying scalable applications on AWS and building innovative solutions in AI and ML. Seeking opportunities to apply technical expertise to impactful projects.

Education

B.Tech in Computer Science Engineering (2nd Year)

Bennett University, Greater Noida, India | Expected Graduation: 2027

Work Experience

Web & App Developer – Zyrax & Zyllo

- Built and deployed zylo.fit and zyrax.fit websites including full backend architecture.
- Deployed backend on AWS with auto-scaling, EC2 instances, and load balancer.
- Developed multiple apps in React Native (Expo) including consulting, services, booking, and social apps.

Projects

- **Consulto (Paid Project)** – React Native app enabling consultants to post reels; users could book them based on expertise.
- **Daily Services App (Paid Project)** – Platform to book maids, cooks, and drivers for daily/monthly usage.
- **Spa Booking App** – App for booking masseuses and spa services.
- **Rocket Cars (Paid Project)** – Ride-sharing app, built as a direct competitor to BlaBlaCar, with map integration.
- **Scoopie (Paid Project)** – Social media app, mix of Instagram & Pinterest, allowing photo/video sharing.
- **Helpt (Paid Project, Live on Play Store)** – App providing professional help and services, currently available on Play Store.
- **Eye Disease Classifier** – AI project using C++, Python, ML to classify eye images into Glaucoma, Cataract, Normal.

Skills

- Programming Languages: Python, C++, JavaScript, HTML, CSS
- Frameworks & Tools: React, React Native (Expo), Node.js, AWS, Machine Learning (basic)
- Specialties: Web Development, App Development, Backend Deployment, Cloud Architecture

Achievements & Activities

- Published and deployed multiple full-stack apps and websites.
- Experience in scalable backend deployment and real-world client projects.
